

Do you know?

- The Physics concepts and knowledge to be mastered in the first chapter are used in every other chapters of the entire syllabus?
- The O-Level Practical Exam Paper 3 has a 20% weighting. The practical lab skill sets required begins at the first Chapter.
- Students who have a weak foundation can lose as much as 10% of marks which is a 2-grade difference. That is, an A1 becomes a B3 and C5 becomes a D7.

Let Concept First make it work for you

Join our head-start class to establish a strong foundation for Physics!

Including hands-on practice with apparatus !!

Class Schedule
